

COUNTERBALANCE

design Daniel Rybakken, 2012

**LUCE
PLAN**

Type: Wall
Lamps: LED 14,5W warm white 2700K, 800 lumen, CRI > 90
beam angle 85°, 220-230 V - 50/60 Hz
Product use: Indoor
Materials: Head in aluminium, stem and counterweight in steel
Colors: Black

Description: An object that seems to defy the laws of physics. Oriented at will in space, the essential counterbalance led lamp evokes – with its variable posture – the dynamic equilibrium of a sculptural mobile equipped with a fluid balancing system using gear wheels. The counterweight compensates for the movements of the long arm and ensures the stability of the diffuser. The lamp is made in black painted steel, with a vaulted aluminium top.
